

YOUR DAILY CAPACITY CHECK-IN

Before you begin your day, pause and ask:

What kind of day am I working with today?

1 MINIMUM DAY

You're low on energy.
Your body or mind
needs support.

- Focus on essentials only
- Reduce pressure
- Let "enough" be enough

Rest.
Protect.
Simplify.

2 STANDARD DAY

You feel steady
and capable.

- Follow your plan
- Move with clarity
- Stay grounded and intentional

Stay focused.
Stay aligned.

3 EXPANDED DAY

You feel energized
and clear.

- Take on more
- Create, lead, stretch
- Use the momentum wisely

Create.
Lead.
Expand.

THIS ISN'T ABOUT DOING LESS.

It's about working in
alignment with your
capacity so you can move
with clarity, not force.

BEFORE YOU BEGIN:

PAUSE.

CHECK IN.

CHOOSE
YOUR LEVEL.

THEN MOVE
FROM THERE.

You don't have to override yourself to be effective.
You can lead your day with awareness, clarity, and ease.

CONTINUE WITH SUPPORT

If you'd like support moving forward with clarity and ease,
you're welcome to begin with the FCR Clarity Assessment
or explore working together.
